## COVID-19 Policies and Procedures

At this time, DCYF and the Department of Health have specific guidelines for childcare to follow to help prevent the spread of COVID-19.

Anyone who is picking up or dropping off must wear a face covering when entering the building. This new policy applies to our YMCA staff as well. Please help our YMCA in preventing the potential spread of COVID-19.

Children in our School-Age Child Care program will be required to wear cloth face coverings while in our care. We are encouraging parents to work with your child to understand the importance of wearing a face covering and how to take them on and off. Based on guidance from the Department of Health, children and youth may remove cloth face coverings to eat and drink and when they go outdoors for recess, or physical education.

When entering the YMCA, children will be required to do a health screen before entering the program area. Staff will check the child's temperature and ask basic health questions such as "Has your child been in close contact with anyone with suspected or confirmed COVID-19?", "Has your child had a temperature over 100.4 degrees?", "Has your child/youth had any medication to reduce a fever before coming to care?". Please answer these questions honestly.

During day-to-day activities, children will maintain social distancing of six feet between groups and siblings will remain in the same group to help prevent cross-contamination between groups. The same staff will remain with the same group as much as possible to help keep groups of staff and children the same.

If you or your child has come in contact with anyone who potentially has COVID-19 please do not use childcare until you can confirm that the individual does not have COVID-19. If you or your child has come in contact with an individual who has COVID-19 and your child attended care please call our main office at 509-374-1908 and inform us so that we can take the appropriate steps to ensure our children and staff are safe.

If your child has a fever they are not able to attend YMCA childcare until they are fever free for 24 hours after symptoms appear or receive a negative COVID-19 test result. Please assist us in keeping all of the children in our care safe.

If you have any questions or concerns please email us at [childcare@ymcatricities.org](mailto:childcare@ymcatricities.org) or call us at 509-374-1908.

Thank you,  
YMCA School-Age Childcare Team

Dear Parent or Guardian,

Starting August 1, 2020, all immunization records turned in to schools or childcare centers are required by state law to be medically verified. Immunization records must be turned into the school on or before the first day of attendance. This means immunization records turned in to the school must be from a health care provider, or you must attach paperwork from a health care provider to your handwritten form that shows your child's records are accurate. Your child cannot attend childcare until you provide these records.

Here are some examples of medically verified immunization records:

- A completed [Certificate of Immunization Status \(CIS\)](#) signed by a health care provider. Find the CIS form by visiting <https://www.doh.wa.gov/SCCI> and clicking on "Certificate of Immunization Status."
- A CIS filled out by you or another parent/guardian with medical records attached.
- A CIS printed by a health care provider or school from the Washington State Immunization Information System.
- A CIS printed from [MyIR](#) which is a free Department of Health online tool that allows families to view and print their official immunization records themselves. Go to <https://wa.myir.net/register> to begin the sign-up process.

If you are requesting an exemption from one or more of the immunization requirements, you must provide the school a completed Certificate of Exemption.

If your child already meets immunization requirements and has records on file with the school, you do not need to do anything. If you are not sure, or if you have any questions, please contact us at 509.374.1908 or at [childcare@ymcatricities.org](mailto:childcare@ymcatricities.org).

Sincerely,

YMCA Childcare Team

**Documentation of Disease Immunity (Health care provider use only)**

If the child named in this CIS has a history of varicella (chickenpox) disease or can show immunity by blood test (titer), it must be verified by a health care provider.

I certify that the child named on this CIS has:  
 A verified history of varicella (chickenpox) disease.  
 Laboratory evidence of immunity (titer) to disease(s) marked below.

**Instructions for completing the Certificate of Immunization Status (CIS): Print the form from the Immunization Information System (IIS) or fill it in by hand.**

**To print with the immunization information filled in:**

Ask if your health care provider's office enters immunizations into the WA Immunization Information System (Washington's statewide registry). If they do, ask them to print the CIS from the IIS and your child's immunization information will fill in automatically. You can also print a CIS at home by signing up and logging into MyIR at <https://wa.myir.net>. If your provider doesn't use the IIS, email or call the Department of Health to get a copy of your child's CIS: [waitrecords@doh.wa.gov](mailto:waitrecords@doh.wa.gov) or 1-866-397-0337.

**To fill out the form by hand:**

1. Print your child's name and birthdate, and sign your name where indicated on page one.
2. Write the date of each vaccine dose received in the date columns (as MM/DD/YY). If your child receives a combination vaccine (one shot that protects against several diseases), use the Reference Guides below to record each vaccine correctly. For example, record Pediatix under Diphtheria, Tetanus, Pertussis as DTaP, Hepatitis B as Hep B, and Polio as IPV.
3. If your child had chickenpox (varicella) disease and not the vaccine, a health care provider must verify chickenpox disease to meet school requirements.
  - If your health care provider can verify that your child had chickenpox, ask your provider to check the box in the Documentation of Disease Immunity section and sign the form.
  - If school staff access the IIS and see verification that your child had chickenpox, they will check the box under Varicella in the vaccines section.
4. If your child can show positive immunity by blood test (titer), have your health care provider check the boxes for the appropriate disease in the Documentation of Disease Immunity section, and sign and date the form. You must provide lab reports with this CIS.
5. Provide proof of medically verified records, following the guidelines below.

**Acceptable Medical Records**

All vaccination records must be medically verified. Examples include:

- A Certificate of Immunization Status (CIS) form printed with the vaccination dates from the Washington State Immunization Information System (IIS), MyIR, or another state's IIS.
- A completed hardcopy CIS with a health care provider validation signature.
- A completed hardcopy CIS with attached vaccination records printed from a health care provider's electronic health record with a health care provider signature or stamp. The school administrator, nurse, or designee must verify the dates on the CIS have been accurately transcribed and provide a signature on the form.

**Conditional Status**

Children can enter and stay in school or child care in conditional status if they are catching up on required vaccines for school or child care entry. (Vaccine series doses are spread out among minimum intervals, so some children may have to wait a period of time before finishing their vaccinations. This means they may enter school while waiting for their next required vaccine dose). To enter school or child care in conditional status, a child must have all the vaccine doses they are eligible to receive before starting school or child care.

Students in conditional status may remain in school while waiting for the minimum valid date of the next vaccine dose plus another 30 days time to turn in documentation of vaccination. If a student is catching up on multiple vaccines, conditional status continues in a similar manner until all of the required vaccines are complete.

If the 30-day conditional period expires and documentation has not been given to the school or child care, then the student must be excluded from further attendance, per RCW 28A.210.120. Valid documentation includes evidence of immunity to the disease in question, medical records showing vaccination, or a completed certificate of exemption (COE) form.
